

2026 Blue Cross and Blue Shield Service Benefit Plan - Standard and Basic Option**Section 5. Benefits****Section 5(f). Prescription Drug Benefits**

Section 5(f). Prescription Drug Benefits

Important things you should keep in mind about these benefits for members enrolled in our regular pharmacy program:

- We cover prescription drugs and supplies, as described in the chart below and on the following pages for members enrolled in our regular pharmacy drug program.
- If there is no generic drug available, you must pay the brand-name cost-sharing amount when you receive a brand-name drug.
- If there is a generic substitution available and you or your provider requests a brand-name drug, you will be responsible for the applicable tier cost-share plus the difference in the cost of the brand-name and generic drug. If the provider's prescription is for the brand-name drug and indicates "dispense as written," you are responsible only for the applicable tier cost-share.
- If the cost of your prescription is less than your cost-sharing amount, you pay only the cost of your prescription.
- Please remember that all benefits are subject to the definitions, limitations, and exclusions in this brochure and are payable only when we determine they are medically necessary.
- Benefits for certain self-injectable (self-administered) drugs are provided only when they are dispensed by a pharmacy under the pharmacy benefit. See the Tier 4 and Tier 5 specialty drug fills from a Preferred pharmacy in the following pages.
- Benefits for certain auto-immune infusion medications (limited to Remicade, Renflexis and Inflectra) are covered only when they are obtained from a non-pharmacy provider, such as a physician or facility (hospital or ambulatory surgical center). See *Drugs From Other Sources* in this section for more information.
- Be sure to read Section 4, *Your Costs for Covered Services*, for valuable information about how cost-sharing works. Also, read Section 9 for information about how we pay if you have other coverage, or if you are age 65 or over.
- Medication prices vary among different retail pharmacies, the Mail Service Prescription Drug Program, and the Specialty Drug Pharmacy Program. **Review purchasing options for your prescriptions to get the best price.** A drug cost tool is available at www.fepblue.org or call:

- **Retail Pharmacy Program: 800-624-5060, TTY: 711**
- **Mail Service Prescription Drug Program: 800-262-7890, TTY: 711**
- **Specialty Drug Pharmacy Program: 888-346-3731, TTY: 711**
- **YOU MUST GET PRIOR APPROVAL FOR CERTAIN DRUGS AND SUPPLIES, and prior approval must be renewed periodically.** Prior approval is part of our Patient Safety and Quality Monitoring (PSQM) program. Keep reading in this section for more information about the PSQM program and see Section 3 for more information about prior approval. Our prior approval process may include step therapy, which requires you to use a generic and/or preferred medication(s) before a non-preferred medication is covered.
- During the course of the year, we may move a brand-name drug from Tier 2 (preferred brand-name) to Tier 3 (non-preferred brand-name) if a generic equivalent becomes available or if new safety concerns arise. We may also move a specialty drug from Tier 4 (preferred) to Tier 5 (non-preferred) if a generic equivalent or biosimilar becomes available or if new safety concerns arise. If your drug is moved to a higher tier, your cost-share will increase. If your drug is moved to noncovered, you pay the full cost of the medication. Tier reassignments during the year are not considered benefit changes.
- A pharmacy restriction may be applied for clinically inappropriate use of prescription drugs and supplies.
- The Standard Option and Basic Option formularies both contain a comprehensive list of drugs under all therapeutic categories with two exceptions: some drugs, nutritional supplements and supplies are not covered; we may also exclude certain U.S. FDA-approved drugs when multiple generic equivalents/alternative medications are available.
- **The exclusion for hormone treatments for Sex-Trait Modification for gender dysphoria** only pertains to chemical and surgical modification of an individual's sex traits (including as part of "gender transition" services). **We do not exclude coverage for entire classes of pharmaceuticals**, e.g., GnRH agonists may be prescribed during IVF, for reduction of endometriosis or fibroids, and for cancer treatment or prostate cancer/tumor growth prevention.
- **Under Standard Option,**
 - You may use the Retail Pharmacy Program, the Mail Service Prescription Drug Program, or the Specialty Drug Pharmacy Program to fill your prescriptions.
 - There is no calendar year deductible for the Retail Pharmacy Program, the Mail Service Prescription Drug Program, or the Specialty Drug Pharmacy Program.
- **Under Basic Option,**
 - **You must use Preferred retail pharmacies or the Specialty Drug Pharmacy Program in order to receive benefits.** Our specialty drug pharmacy is a Preferred pharmacy.

- The Mail Service Prescription Drug Program is available only to members with primary Medicare Part B coverage.
- There is **no calendar year deductible**.
- We use a managed formulary for certain drug classes. Please see our online formulary and drug pricing search tools at www.fepblue.org or call 800-624-5060, TTY: 711.
